SETTLEMENT IN SIGHT

IMPORTANT STEPS TAKEN IN LONDON TO SATISFY CLAIMS AGAINST VENEZUELA.

DETAILS CLOSELY GUARDED

If the Contemplated Action Meets With Approval Germany and Great Britain Will Have No Cause to Take the Vigorous Steps Now Meditated—Secret Venezuelan Delegation Arrives in Europe.

London, Nov. 29.—The Associated Press learns that important steps were taken in London during the day with a view to satisfying all the financial and diplomatic claims by foreign powers and bondholders against Venezuela. It is maintained that if the contemplated action meets with approval, Germany and Great Britain will have no cause to take the vigorous steps now contemplated. The details of the suggested settlement have not been communicated to the European governments as yet. Their gist first will be known to the United States government. The medium of such communication is one of the most important Anglo-American bankers. Venezuela's propositions were mentioned to Ambassador Choate during the day, but pending the result of the direct representations at Washington, no action will be taken by the embassy towards suggesting that Venezuela be given time to submit her proposals.

The new development in the crisis, which is regarded as hourly growing more serious, is due to the arrival in Europe of a secret delegation from the Venezuelan government empowered to deal with the outstanding liabilities of that republic.

Until a suitable plan could be arranged, it was considered inadvisable to communicate with the foreign ministers at Caracas, with whom relations have become so strained. Such a plan has now, in the belief of the delegation, been arrived at and unofficially, through the Anglo-American banker, the attitude of the United States will be ascertained. Besides the state department will be put in a position to be able to judge of the value of Venezuela's offer and her good faith in the matter.

Secrecy Considered Imperative.

It is explained that President Castro has hitherto had no opportunity of taking up the question of national finances, but while he himself was engaged in suppressing the revolution, he sent to Europe the secret delegation referred to, with the view of accomplishing what was regarded as impossible of execution at Caracas. Secrecy was regarded to be imperative in view of President Castro's belief that if it had been known that Venezuela contemplated a new financial settlement he would have been inundated with claims of every description, and the dealings with the bondholders would have presented many more difficulties.

The details of the plan which will be communicated to the state department are carefully guarded, but the Associated Press is in a position to announce that the main feature is a unification of all the outstanding government and government guaranteed loans upon a basis of security much greater than has been hitherto offered. It is strenuously denied that the present movement is due to any desire on the part of Venezuela "to spar for time" with Great Britain and Germany, and in proof of this it is pointed out that the secret mission left Venezuela before her relations with Great Britain and Germany had assumed the present acute aspect.

Should the United States government give its moral support, the plan will be submitted to American bankers. The Venezuelan delegation believes that it is not too late to secure the necessary facilities from Europe to bring about a settlement satisfactory to all parties concerned.

FIRE BAFFLES ALL EFFORTS.

Twenty-five Million Feet of Lumber Burns at Norman, Ont.

Rat Portage, Ont., Nov. 29.—Fire started at Norman, near here, during the day and notwithstanding every effort the flames spread swiftly through immense piles of lumber to the docks and from the docks to boats, until stopped in that direction by the water's edge. Dense showers of sparks were carried inland toward the residence section of the city and one by one the houses went up in flames and smoke. When this dispatch was sent the fire was still burning. Twenty-five million feet of lumber were destroyed as well as Lemay's ship yard, six steamboats, two barges, eleven dwellings and one stable.

A number of wooden structures in the path of the fire were destroyed, and the progress of the flames was checked. A dozen houses and barns were destroyed. The lumber yards are great masses of glowing embers, but there appears to be no fear of a further spread of the fire. No accurate estimate of the loss can be secured yet.

WILL CHANGE THE SYSTEM.

New President of Princeton Favors Adopting an English Custom.

Chicago, Nov. 29.—"My hobby is to establish in Princeton university a system of tutors like that of England, which shall throw the seniors and juniors upon their own resources and start in them habits of independent thinking. By doing this we shall give Princeton a distinction such as will remove it entirely from competition with other colleges." In these sentences, Woodrow Wilson, the new president of Princeton university, expressed his hope for the future of the great educational institution before 100 of its alumni who gathered in his honor during the evening at a banquet at the University club.

FANNED BY A HIGH WIND.

Flames Destroy the Business Section of Rochford, S. D.

Deadwood, S. D., Nov. 29.—Fire broke out during the day in the business part of Rochford. A high wind was blowing at the time, and the fire spread with great rapidity. Flames soon enveloped the only business street of the town and the business section was devastated. The town had no fire department and is far from any town which had one.

The fire started from a defective flue. The loss is severe and the insurance small.

CREW MAY BE SAFE.

Opinion Now Prevails the Bannockburn's Men Are Ashore.

Montreal, Nov. 29.—News from various sources received here during the day regarding the missing steamer Bannockburn has inspired the hope that her crew of twenty men may be safe ashore somewhere on the mainland north of Michipicoten Isle. While some doubt still exists the company officials are confident that the crew escaped, although the Bannockburn is believed to be a wreck on the rocky north shore of Lake Superior.

THREE HUNTING FATALITIES.

Boys Accidentally Killed in Separate Localities in Kansas.

Kansas City, Nov. 29.—Harold H. Merrick, aged fourteen, a high school student of this city, accidentally shot and killed himself during the day while hunting near Wolcott, Kan. James Gist, aged fourteen, was shot and killed at Oxford, Kan., by his brother, while they were hunting. The fourteen-year-old son of H. N. Boyd of Bellevue, Kan., was killed while hunting, his gun being discharged while he was pulling it through a fence.

Mayor A. J. Halsted was named past worthy president of the order of Eagles after the business session Thanksgiving evening. This is an appointive office, but the appointment is usually made at the request of the aerie and Mr. Halsted was the unanimous choice of the boys in the city. He will represent the aerie at the national convention to be held in New York next summer, expenses all paid, which is certainly an honor.

Getting Their Hair Cut

The Formosans are cutting their hair, whereas there is great jubilation in Japanese government circles. It must be understood that to say "Get your hair cut" to a native of Formosa was formerly the worst form of insult. Almost as soon he would have cut off his head. Now, however, as a sign of submission to Japanese rule and in conformity with civilized customs, he is beginning to shear of his superfluous hair growth. Every week the governor of Formosa telegraphs to Tokyo the additional number of natives who have cut their hair, just as Lord Kitchener telegraphed from time to time the number of Boers captured.

FATAL FLAW FOUND.

Minnesota Supreme Court Knocks Out Inheritance Tax Law.

St. Paul, Nov. 29.—A decision by Judge Brown of the supreme court, handed down during the day, gives the quietus to the inheritance tax law of 1901. It is held unconstitutional because it operates unequally. By an error in drafting it, the law taxes the whole value of collateral inheritances when they exceed \$5,000, but when the inheritance is to a lineal descendant only, the excess over \$5,000 is taxed. The mistake was discovered and the extra session endeavored to correct the mistake, but made another in so doing. The case decided during the day was carried up from Ramsey county in order to definitely settle the point and clear the decks for the new legislature, which is expected to pass a valid law.

FRAUDS IN LAND OFFICES.

Thorough Investigation Ordered in Northern Minnesota.

Washington, Nov. 29.—The land office department has decided to make a thorough investigation of the Northern Minnesota land offices at Duluth, Crookston and St. Cloud.

It is claimed that many fraudulent entries have been reported, and, as there is a general shaking up all over the country as a result of recent disclosures made by special agents of the general land office, Minnesota is to be included.

Some of the special agents who unearthed frauds in Nebraska are to be detailed on the Minnesota work.

FOREIGN PRAISE OF AMERICA

German Observer Calls It the Land of Unbounded Possibilities.

As the result of an eight months' official tour of observation Ludwig Max Goldberg, of Berlin, royal privy councillor of commerce and member of the Imperial German board for commercial measures, has written a series of articles on America under the title "The Land of Unbounded Possibilities," which have just been published in English by the treasury department at Washington. Among other things he says:

"The United States, like an enchanted garden, has brought forth from a marvelously productive soil splendid results of human ingenuity. Yet the thing that causes most wonder is that the concentrated intelligence which, intending to replace human factors by machinery, has in working toward its aim been giving to constantly growing numbers of workmen an opportunity to support themselves and become productive factors."

"The joy at the size of their own land encourages each individual. It makes him communicative and friendly to foreigners who are seeking information. It seems as though every one were filled with the idea, 'The stranger shall see how great and strong America is.'"

"My eight months' trip of observation and study took me through the states, and everywhere I found open doors inviting me to enter, and nowhere did I find the slightest attempt at secretiveness. Everywhere I observed an uncommon but steady bustle of men who enjoy their work and are consciously working for great results. 'This is a great country.' This is the verbatim designation of reverential admiration which the citizen of the United States has found for his country."

A Silent Zone.

That a powerful alarm like a fog siren can be sounded without being heard is shown by the recent investigations of E. P. Edwards on the English coast, says the Hartford Courant. At a distance of a mile from the siren the sound began to die away, and between two and three miles it was entirely inaudible, while beyond three miles it was again plainly heard. This mysterious silent zone constantly changed in extent and position.

An Electric Target.

The new electric target of Captain Charles Chevallier of the French army is made up of a series of metal segments, says the Philadelphia Press. When a projectile strikes a segment, an electric circuit is completed by one or more spring supported rods at the back, and the exact spot struck is signaled upon an annunciator.

A. PREMO HELD

TO GRAND JURY

His Hearing Came up This Afternoon Before Judge Warner.

Waived Examination.

HE IS HELD ON THREE COUNTS.

And it is Dollars to Doughnuts

That he Will Draw a Trip to Stillwater This Time.

Arthur Premo, the astute, light fingered individual, charged with extracting two checks from the pocket book of E. M. Conrad, a traveling man, forging them and attempting to get them cashed, was to have his hearing this afternoon but it was very short. By his attorney F. L. Bannon, he waived examination and was held to the grand jury.

There are three charges against the man, one being grand larceny in the first degree and the other two being forgery on two separate counts.

A GERMAN WESTMINSTER.

Kaiser Plans a Massive Cathedral For Berlin.

The kaiser is ambitious to create a monumental structure in Berlin which shall match Westminster abbey in London, says the New York World. At present the remains of the former leaders of the Hohenzollern family are scattered. But Kaiser Wilhelm is credited with the intention of gathering all his forefathers under one roof. The massive cathedral opposite the royal castle is now in the last stages of completion, and this costly temple is to serve as the German Westminster unless fate interferes. It is decided that it will serve as the resting place of William II.

The kaiser recently inspected the interior of the cathedral, which is all completed except for the rich mosaic interior adornments. Already 16,000,000 marks (\$4,000,000) has been expended on the structure, which will be the greatest attraction in the architectural and artistic line that Berlin will offer to visitors. It will serve as the royal place of worship, and the pews have nearly all been reserved for the high court officials and members of the royal family.

It has always been the dream of the kaiser to create a magnificent temple in which the remains of the members of the Hohenzollern family should be interred under one roof.

NEW HONOR FOR LIPTON.

King Suggests He Act as Guide For Prince and Princess of Wales.

King Edward has suggested, says a staff correspondent of the New York Press at London, to Sir Thomas Lipton, who is today perhaps the most intimate of his chums, that he would like to have him serve as guide, philosopher and friend to the Prince and Princess of Wales if they go to America to attend the St. Louis exposition in 1904.

The choice of Sir Thomas is due partly to a desire to honor a man who has the knack of being on such friendly terms with both the king and the queen and partly to the notion that he would be the best man to show to the royal couple what is best worth seeing in the commercial development of America.

Although Lord Salisbury refused to accede to the king's request to make Sir Thomas Lipton a lord and resigned from the premiership in consequence, partly, of the disagreement that followed, it can be predicted with safety that if Sir Thomas captures the America's cup he will be made a peer before he begins work as cicerone of the Prince and Princess of Wales.

GREAT IMPROVEMENT

Nature's Ways Often Hard to Understand.

MAN'S BEST GIFT DISGUISED

By Disagreeable Exterior—It Takes Science to Reveal Nature at Her Best.

In many ways Nature is all right just as she is, and when the hand of man attempts to improve upon her works, a botchy job, to say the least, often results.

There are, however, a great many instances where by a little human help Nature's best gifts are doubly enhanced in value and brought forth from obscurity in a manner that is causing this century to be known as one of progress.

There is nothing in the way of a discovery that will prove of greater benefit to man in general, and to the inhabitants of this part of America in particular, than Vinol, which represents an old and valuable remedy introduced in a new and practical form. Vinol is being hailed by physicians and patients alike as a glorious intervention of Providence for annihilating certain diseases of a wasting nature and prolonging life, and its discovery is a fitting climax, coming as it does at the end of a century that will go down into history as remarkable for its advancement.

Vinol, as it is sold today, is fast becoming what all other great inventions soon become, a positive necessity that makes the world wonder how it ever existed without it.

Cod liver oil, on account of the peculiar medicinal properties which it contains, has been known to science for years as the most efficient of all specifics for throat, lung and bronchial troubles, and all wasting diseases. The layman, however, has appreciated the fact as forcibly as the professional, that this same remedy was often rendered practically useless on account of its disagreeable odor and taste, until it began to appear as though cod liver oil might eventually be omitted from the Pharmacopoeia.

The invention of Vinol has saved this wonderful medicine, not as we have known it, to be sure, but in its new form, which is nothing more or less than the identical, potent, remedial factors that have made the cod's liver famous. This new discovery consists only in finding a way of extracting the curative principles of the cod liver, which once obtained are dissolved in a mild, delicious and delicate table wine.

And so to us is given this old remedy in its new form, doubly efficient, absolutely tasteless, and denuded of its greatest and most serious objection, the fatty matter itself, which has always precluded the use of cod liver oil in cases where the digestive apparatus had become weakened. Vinol is with us to stay, and to do good as yet is incalculable.

Asleep Amid Flames.

Breaking into a blazing home, some firemen lately dragged the sleeping inmates from death. Fancied security, and death near. It's that way when you neglect coughs and colds. Don't do it. Dr. King's New Discovery for Consumption gives perfect protection against all throat, chest and lung troubles. Keep it near, and avoid suffering, death and doctor bills. A teaspoonful stops a late cough, persistent use the most stubborn. Harmless and nice tasting, it's guaranteed to satisfy by H. P. Dunn & Co., and McFadden Drug Co.

FIRST LADIES OF THE LAND

Remarkable Change Reported in Mrs. McKinley's Health.

Mrs. Roosevelt one can rely upon to be always gracious. Her manner is the passport of liking, and all whom she meets, whether young or old, kindle with her genuine kindness. Tireless indeed would be the journalist who reported each of her pretty deeds. When Mrs. Roosevelt visited Yale, she talked, among others, with Policeman Donnelly, known to every undergraduate as the "best of fellows." Policeman Donnelly approved of Mrs. Roosevelt, and she reciprocated. They became good friends, and when the madam returned to Oyster Bay she sent the peace-guardian a photograph of herself, with a line of recognition of the trouble he had been put to, says the Onlooker.

It was a small thing, but it was considerable, and the world grows ever better for such small kindness. Speaking of Mrs. Roosevelt recalls her predecessor. It is astonishing to learn that Mrs. McKinley has fairly turned her back upon goldism and waxed recently fat to the extent of forty added pounds.

CORRUPTION GROWING

NO EFFECTIVE ATTEMPT YET MADE TO REFORM THE CHINESE FINANCES.

PECULATION IS INCREASING

Many Difficulties Have Also Arisen in Consequence of the Continued Decline in Silver—While There Is No Reason to Fear That China Will Meet Her Obligations She Will Require 2,500,000 More Taels.

London, Nov. 29.—The Times publishes a dispatch from its Peking correspondent dealing with the difficulties which have arisen in consequence of the continued decline in silver. The correspondent says there is no reason to fear that China will fail to meet her engagements, but a discouraging feature in the situation is that no effective attempt has yet been made to introduce any kind of fiscal reform anywhere in the empire, while, if anything, corruption is on the increase. For instance, the Peking octroi, under the purer administration of Prince Su, yielded the government 700,000 taels net revenue, against 150,000 taels previously obtained, yet Prince Su was transferred and condemned for exposing the true earnings of the octroi and Prince Ching, his successor, reverted to the old order of things and peculation is now worse than ever. At the present rate of silver, adds the correspondent, China will require to provide an additional 3,500,000 taels for the next installment of the indemnity due in January.

REPLIES TO RUSSIA'S NOTE.

Great Britain Requests Adherence to Brussels Sugar Conference.

St. Petersburg, Nov. 29.—It is officially announced that Great Britain is the only power that has replied to the Russian note regarding the sugar conference. Great Britain's reply hoped that the Russian government would still signify its adherence to the Brussels conference, but if not Great Britain would be compelled to impose a retaliatory duty on Russian sugar, provided it was determined a sugar bounty existed in Russia. The Russian government has replied to Great Britain's note declaring that such an action would be an infringement on the Anglo-Russian commercial treaty of 1859. The Russian government maintains that it did not take part in the Brussels conference, because it wished to assure itself of its right to adopt domestic measures for the protection of the Russian sugar industry.

ROUT THE CONSTABULARY.

Ladrones Kill an Inspector and a Private in Samar.

Manila, Nov. 29.—Constabulary Inspector Hendryx, who has been stationed in Samar Island, was killed last Tuesday by a band of ladrones. The reports regarding his death are meager and indicate that Hendryx was attacked by a superior force of ladrones. His detachment of constabulary was routed and Hendryx with one soldier was surrounded and killed.

The sultan of Bacolod, after professing friendship for America, has written a letter to Captain Pershing at Camp Vicars, in which he calls Americans "hogs, who eat hogs," and challenges them to fight. It is probable that Captain Pershing will be ordered to take a column to Bacolod. The military men, however, doubt whether the sultan will really fight.

STORMY SCENES RENEWED.

Uproar Compels Suspension of Sitting of German Reichstag.

Berlin, Nov. 29.—Stormy scenes were renewed in the reichstag during the day, and at one point in the proceedings the uproar reached such a pitch that Vice President Buessing resorted to a suspension of the sitting, a measure without precedent in the reichstag.

The house was discussing the motion of Baron von Kardoff, representing the majority parties, to vote the second reading of the tariff bill as a whole without a paragraph discussion as contemplated by the rules. The minority thus would be unable to delay the final vote for any length of time and were furiously indignant at what they called a "parliamentary coup d'etat," and the complete suppression of the rights of the minority.

TO CRUSH THE MACEDONIANS.

Awful Forms of Torture Adopted by Turkish Authorities.

Constantinople, Nov. 29.—In spite of all official denials, the porte is adopting barbarous methods in crushing the Macedonian peasants.

In the face of promises of free pardon to those who returned to their homes, Christian villagers have been shockingly tortured to make them betray alleged concealed spots of arms or give information regarding the working of the Macedonian committees. The bastinado has been frequently employed until the victims were crippled for life, their feet being beaten to a pulp by Turkish soldiers.

Peasants were also hung by their heels to the ceiling and hot eggs were put in their arm pits. Even priests were not spared.

BRITISH PORTS CLOSED.

Result of the Plague of Foot and Mouth Disease.

London, Nov. 29.—The board of agriculture has closed the ports of the United Kingdom against the importation of animals from Maine, New Hampshire, Vermont, Massachusetts, Connecticut and Rhode Island. The order takes effect Dec. 5. Cargoes arriving in the meanwhile will be the subject of special investigation.

KELLEY NABBED

FORMER PRESIDENT ST. LOUIS HOUSE OF DELEGATES FINALLY CAPTURED.

JUST BACK FROM EUROPE

Recognized by a Reporter on Landing From the Steamer Celtic at New York and Detectives Took Him Into Custody on His Arrival at Philadelphia—Says He Intended to Face the Charges Against Him.

Philadelphia, Nov. 29.—Charles F. Kelley, formerly president of the house of delegates of St. Louis, was arrested in this city during the afternoon. He was taken from the westbound train, which left New York about 11 o'clock, by a local detective. The arrest was made on a fugitive warrant charging Kelley with perjury and bribery. Kelley told the detectives that he had been in Ireland and left Londonderry with the intention of proceeding direct to St. Louis and facing the charges against him there. At the Central police station the prisoner broke down and wept. He said he was overcome by learning on his arrival in New York of the death of his son, which had occurred during his absence.

RETURNS FROM EUROPE.

Former Speaker Kelley of St. Louis House of Delegates.

New York, Nov. 29.—The Evening World prints the following: Charles F. Kelley, former speaker of the house of delegates of St. Louis, landed from the White Star steamer Celtic when she docked. At the pier to meet him was Congressman-Elect James G. Butler of St. Louis.

Butler's bookkeeper, William J. Sullivan, and William Ratigan, a St. Louis contractor and neighbor of Kelley's, were his ship companions. Kelley's face was white and wrinkled when he left the ship. He started when an Evening World reporter greeted him by name.

Congressman Butler tried to shut the reporter off, but Kelley recognized him as a St. Louis acquaintance and extended his hand.

"For God's sake let me alone for today," he said. "I have nothing to say. I have just received word that my son is dead and I am going right back to St. Louis."

St. Louis, Nov. 29.—Charles F. Kelley, the former speaker of the St. Louis house of delegates, left St. Louis several months ago, soon after the grand jury had returned indictments charging him on several counts with bribery in connection with municipal legislation for street railway and other franchises. His bonds were fixed at \$30,000. Kelley, it is charged, is the man who distributed the \$47,500 bribe fund among members of the house combine three years ago for the passage of the city lighting bill. Until now his whereabouts were unknown to the authorities. A reward of \$300 offered by the state for Kelley's arrest still stands.

Chief of Police Kiely has telegraphed to New York, Philadelphia and intermediate points asking the authorities to arrest Kelley. It is believed by Kelley's friends that he will try to evade arrest and, after reaching St. Louis, give bond.

FENCES IN NEBRASKA.

Colonel Mosby Predicts Bloodshed Before They Are Torn Down.

Omaha, Nov. 29.—Colonel John S. Mosby, special land agent for the government, who has been called here to testify before the federal grand jury now in session, said:

"There will be bloodshed in Nebraska over that fence matter before it is done, but I propose to have the fences torn down if I have to send a cavalry force there to do it. President Roosevelt," continued Colonel Mosby, "has assured me that the fences will be removed. He said, 'this thing must stop or there will be bloodshed over it.' And President Roosevelt knows just as much about this Western land question as any one in the country does, for he lived in the West a number of years. Just as soon as I get through this grand jury work here I will go on to Alliance and look after the Standard Cattle company. That company probably has more land fenced in Nebraska than any other concern, and I must look into it."

ARRESTS DECLARED ILLEGAL.

Inmates of Disorderly Houses Discharged at Philadelphia.

Philadelphia, Nov. 29.—The raids on disorderly houses last week by the police under instructions from headquarters were improperly conducted, according to Judge Audenreid, who during the day discharged Louis Zimmerman and nine women arrested at that time. The judge ruled that the arrests were illegal. Zimmerman was alleged to be the proprietor of a disreputable resort. Two of the women were taken into custody at another house. All were committed to prison in default of bail, but secured writs of habeas corpus through counsel, which were argued before Judge Audenreid.

BOTH FATALLY WOUNDED.

Two Kansas Men Fight a Duel Over a Waitress.

Armourdale, Kan., Nov. 29.—Ernest Damms and Charles W. Tucker, packing house employees, fought a pistol duel during the day over Mabel Randall, a waitress. Damms was mortally wounded, but before he died he shot Tucker twice, fatally wounding him. Tucker is still alive.

Tucker had met Damms and the girl on the street, and without warning fired two shots at him, the wounded man returning the fire as he lay on the ground.

You can Always Make a Good First Impression

ON the fair Sex by being faultlessly attired; but some people are enough behind the times to believe that only a custom tailor can properly fashion their clothes.

You can create the same impression with clothes that are ready-to-wear-at once if they are only made right.

How can you tell the clothes that are made right?

Look at the coat, just beneath the tab under the coat collar, and you will find the label.

YOU ARE "ALL RIGHT"

for it makes the finest ready-tailored clothing in the world—that made by the Stein-Bloch Co., Wholesale Tailors, of Rochester. You have seen them advertised in all the leading magazines, of course; now come to our store and try one of these smart suits or overcoats and become another convert to the now popular Stein-Bloch habit; we have made hundreds this year.

The Mountain View Route.

This is what the Northern Pacific—Shasta, or Shasta—Northern Pacific Route—it reads as well backward as forward—may well be called.

The route takes its name from Mt. Shasta in northern California. This white, snow capped peak, at the foot of which the Shasta route winds, is 14,350 feet high. The mountain is in plain view for several hours from the train and its distance from the track varies from twelve to seventy-five miles.

The beautiful scenery of the Sacramento river at the base of Shasta, is connected with this route only. Castle Crags, Mossbrae Falls and the natural twin soda fountains at Shasta Springs are scenic gems.

The crossing of the Siskiyou range furnishes the par excellence of railway mountain scenery, and observation cars are furnished there free of charge. Then in succession comes Mts. Jefferson, Hood—a beautiful mountain—St. Helens, Rainier—14,532 feet high—and Adams, all former active volcanoes and now covered with glaciers.

From Portland a steamboat ride trip up the noble Columbia river to the Cascades and Dalles enables the tourist to see a river, palisades, waterfalls and mountains far surpassing anything the Hudson can show.

An opportunity is also given to visit Tacoma, Seattle, Victoria, Vancouver and the Puget Sound region. Then follow the cascade range and the Rockies, and best of all, a stop can be made at Yellowstone Park.

This line traverses the finest scenic region of the United States—don't forget it, and see that your return tickets home from California read around this way.

The train service between Portland and the Puget Sound country, and Duluth, Minneapolis and St. Paul via Spokane, Butte and Helena, is unsurpassed, including through trains daily, one of which is the noted "North Coast Limited."

HAVE OPTION ON VALUABLE TRACT

R. J. Hartley and Others in This City Have Taken Option on Ore Land.

SPECIMENS OF ORE EXAMINED.

One Hundred and Sixty Acres of Land on Iron Range Said to Contain Wealth.

Attorney C. A. Albright and E. A. Hasty returned last night from the iron range country where they went representing besides themselves R. J. Hartley, to look over a valuable piece of property on which they have secured an option. The property is a 160-acre tract of land in the heart of the ore region and the option was secured some time ago by Mr. Hartley.

Messrs. Albright and Hasty went there to get some of the specimens of ore located on the tract and it will be examined by experts and if it is found that there are indications of buried wealth the purchase will be consummated and a company will be organized and the mine developed.

Mr. Hartley feels confident that the mine will turn out to be a good one.

SAY THEY ARE SCABS.

Farmers Who Signed the Agreement to Maintain Fixed Price on Rock Have it in for Brother Farmers.

It is understood that a statement will be issued in a few days by the farmers who formed an alliance some time ago to maintain a certain price on rock, deploring the fact that some farmers are offering to haul rock to the city at the price that the city desires to pay. They claim that such farmers are "scabs" and are injuring the best interests of the farmers in the vicinity of Brainerd. In the meantime, however, rock is coming to the city and it is understood that hundreds of cords will be hauled before spring.

A Sad Death.

Yesterday afternoon the death of the four months old babe of Mr. and Mrs. S. T. Swanson occurred and the facts surrounding the demise of the little infant are rather sad to relate. Last Thursday evening while Mr. Swanson was at the Glee Club concert a little boy came running up the hall, announcing that his little baby boy was dead. He hurried home and after getting there it was found that the child had a fainting spell and was not really dead. After this, however, the baby suffered untold agony having nine or ten of these fainting spells before dying yesterday afternoon. Pneumonia was the cause of the death. The funeral occurred this afternoon at 2:30 o'clock from the family residence, 409, Ninth street south. The sympathy of the community is with Mr. and Mrs. Swanson in their affliction.

Mr. and Mrs. F. J. Peck are in the city today having been guests of Mrs. F. W. Murry since yesterday afternoon. Mr. and Mrs. Peck are on their wedding tour, they having been married at Grand Forks on Thanksgiving day. Mr. Peck is a cousin of Mrs. Murry and has often visited the city. Mrs. Peck was formerly Mrs. Adelia Moore, of Grand Forks, and is a charming lady. They will make their home at Grand Forks, Mr. Peck being the representative of the Minneapolis Tribune for the northern part of North Dakota.

Resolutions of Respect.

At a regular meeting of Aurora Lodge No. 100 A. F. & A. M. held Nov. 25th, 1902, the following preamble and resolutions were adopted:

WHEREAS, It has pleased Almighty God in his wisdom to call from our midst, and his labors, our much esteemed brother, Frank D. Johnson, a Past Master of this lodge, a faithful and ardent Mason, and a man highly honored and respected in the community in which he lived. Therefore be it.

RESOLVED, That we have known, worked with him and loved him, learned of the death of our esteemed and honored brother with profound sorrow, and we desire to place upon record our sense of personal loss, our appreciation of his uniform courtesy and the great value of his services to the fraternity.

RESOLVED, That while we realize, in our fraternal firmament, one of our brightest stars has ceased to shine, we bow in humble submission to the Grand Master of the universe, knowing that in all things He doeth well.

RESOLVED, That we extend to the venerable father of our late brother, and to his sister and brothers our sincere sympathy in their sorrow, and commend to them with tender solicitude the care of his orphan children, whose loss is irreparable.

RESOLVED, That our lodge room be draped in mourning for the space of thirty days as a token of respect to the memory of our late brother, that these resolutions be spread upon the minutes as an enduring record of our regard for him who is gone and that a copy of the same be sent to the family.

RESOLVED, that a vote of thanks of this lodge be extended to Bro. George H. Davis for his kindness in coming to Brainerd to assist at the funeral of our late brother, Frank D. Johnson, also to Bro. Chas E. Farrar, to Ascalon Commandery for their kind escort, and to the lodge of B. P. O. E. and the lodge of United Workmen for their assistance at the ceremonies of interment.

WOULD VACATE PART OF PLAT

Of the Townsite of Koochiching, Owners Being Interested in New Enterprises.

BEFORE JUDGE McCLENAHAN.

Objections are Interposed by Village and by Property Owners Dwelling There.

There was an important hearing on before Judge McClenahan in which the Koochiching company, owners of the original townsite of that village, asked for an order to vacate part of the original plat. The application is made by the company for manufacturing purposes, it having been found since the original plat was made that the place is to become much more important as a manufacturing center than was at first thought.

Objections were interposed to the application by the village itself and by individual property owners. Formal proof was taken yesterday afternoon to establish the title of the owners to the townsite and the rest of the proof will be taken by way of depositions at Koochiching and Minneapolis later and a final hearing will come up on the matter before Judge McClenahan on January 5.

C. J. Rockwood, of Minneapolis, appeared on behalf of the townsite company and C. S. Flannery, of Koochiching, and George P. Flannery, of Minneapolis, appeared on behalf of the village and owners of property.

All northern Minnesota is interested in whatever interests this Rainy Lake country. It is presumed that in the not far distant future the Minnesota & International will extend its lines north and may touch the above point. They are interested in this village as in all other towns and villages along any proposed route. The water power at Koochiching is said to be the best in the country and the town will some day be one of the most important manufacturing points in the northwest.

FUNERAL LARGELY ATTENDED.

The Late John Bubar Laid to Rest at Evergreen Cemetery this Afternoon From St. Paul's Church.

This afternoon the funeral services over the remains of the late John Bubar were held from St. Paul's Episcopal church at 3 o'clock, the Rev. C. E. Faarar officiating. The funeral was largely attended by friends of the deceased, who has been a resident of this city since 1872.

The fire department, of which he was one of the organizers, turned out in a body and the central hose house was draped in mourning and the flag hung at half mast in honor of the dead. The funeral cortege left the family residence at 2 o'clock. The members of the fire department acted as escort and the old alarm bell at the fire house was tolled as the funeral train passed.

The pall bearers were: George Sargent, Daniel McIntosh, G. E. Gardner, James McCabe, Joseph Weitzel and L. H. Stallman.

A large number of friends of the deceased were at the church and the services were impressive. Interment was made in Evergreen cemetery.

New German Automobile.

A new type of automobile has been devised by a German inventor. By friction wheels it is said that the speed is regulated at a uniform rate. The power supplied by the motor can also be regulated by a device by which the flow of gas can be increased or decreased at will. The automobile is very light, and it is easily governed, as it is said that it can be completely controlled by two levers, one for each hand.

MEMORY OF EARLY DAYS.

Col. J. B. Power, Once General Land Commissioner of N. P. Passed Through the City Today.

There was a passenger on the incoming train from the west this noon that was more than ordinarily interested in the city as he gazed about him. That personage was Col. J. B. Power, who at one time was general land commissioner for the Northern Pacific, and who occupied the offices in the depot building now occupied by J. W. Willis, as far back as 1873. Mr. Power lived in this city for some five years, leaving here for Fargo, and afterwards locating on a farm in Richland county not far from Leonard, N. D. This was the first time that he had been to Brainerd for twenty-three years and he expressed no little surprise at the apparent development of the city, although there were a few old landmarks that looked familiar to him. He is now the owner of one of the finest stock farms in the state of North Dakota and was at one time president of the North Dakota Agricultural college, at Fargo.

The colonel was en route east with his daughter, Mrs. Scott, wife of Major Scott, of the United States army.

Tom McIntyre Got the Boat.

Last night the drawing contest for the boat which was raffled by Edwin VanKleeck took place at the Antlers hotel. The boat was one made by the old gentleman himself. He expects to leave the city and took this means of raising a few dollars to help along. The lucky number was "62" and it was held by Tom McIntyre, bartender for Jule Jamieson.

The Wild and Woolly West No More.

An "odious comparison" was recently drawn by a western senator between the cleanliness of the eastern cities and those of the west, says a Washington dispatch to the New York Tribune. "It has long been the custom of you easterners," said the senator, "to cast reflections on us statesmen from the west, whom you represent as wearing cowhide boots and expectorating tobacco juice; but you can do it no more. I came through St. Paul on my way east, and, to my great delight, I found a neat sign on every street corner warning people not to expectorate on the sidewalks under a penalty of a five dollar fine. And they enforce the law too. The first man to incur the penalty was a Minnesotan who has long lived in Washington, and here the custom of promiscuous expectoration seems to be common. It is too bad you easterners cannot come out west and learn to be neat and tidy, as we are."

DEERSLAYER AGED TEN.

He Broke Animal's Leg With a Stone and Then Cut Its Throat.

Eddie Wilbert, the ten-year-old son of E. A. Wilbert, a farmer residing at Ateo, Wayne county, Pa., saw a deer crossing a field near his home the other day and started in pursuit, says a Port Jervis (N. Y.) dispatch to the New York Times. After running a few rods the boy threw a stone which broke one of the animal's hind legs. The lad was then able to overtake the deer and at once attacked it with a club. A fierce fight ensued, and the deer eventually knocked the boy to the ground, but he clung fast and finally dealt it a blow over the head that stunned it. Eddie next ran to his home, where he secured a table carving knife and cut the deer's throat. Then he went after an uncle to help carry the carcass home. The deer weighed 130 pounds.

CHIEF CROKER OUSTED

HEAD OF NEW YORK FIRE DE-
PARTMENT DISMISSED
FROM SERVICE.

WILL FIGHT THE MATTER

Commissioner Sturgis Finds Him
Guilty of a Number of Offenses and
Orders His Retirement on Dec. 1.
Mayor Low Sustains the Order.
Discharged Officer is a Nephew of
the Former Tammany Chief.

New York, Nov. 29.—Edward F. Croker, chief of the fire department, who recently was tried on a series of charges, during the day was declared guilty by Commissioner Sturgis and was dismissed from the service, the dismissal to take place on Dec. 1.

Chief Croker was found guilty on the charges of "failure to enforce the requirements of law for properly safeguarding the Park Avenue hotel," of "the conversion of public property to his private use," of "conduct prejudicial to good order and discipline in persecuting and unjustly discriminating against certain members of the uniformed force," and of "conduct unbecoming an officer and gentleman and prejudicial to good order and discipline."

On the charge of "incompetency as chief of the department in the management of great fires" and of "sending false reports" he was acquitted.

Chief Croker will fight the matter to the end. Mayor Low issued a statement sustaining the commissioner and expressing the belief that he had acted in accordance with the law and with the dictates of his conscience.

Chief Edward F. Croker is thirty-nine years of age and has been connected with the department eighteen years. He is the nephew of Richard Croker. In 1898 he became deputy chief, and on May 1, 1899, he succeeded Hugh Bonner as chief. He is also president of the National Association of Fire Chiefs.

KELLY UNDER ARREST.

Former Speaker of the St. Louis House of Delegates Captured.

Philadelphia, Nov. 29.—After eluding arrest for several months, Charles F. Kelly, the former speaker of the St. Louis house of delegates, who is wanted in connection with the bribery cases unearthed there some time ago, was arrested in this city during the afternoon. Kelly arrived in New York on the steamer Celtic in the morning from Liverpool, and had just stepped from the Western express of the Pennsylvania road at the Broad street station here, when he was taken into custody. He admitted his identity in the central police station. He will be given a hearing and will be held to await requisition papers from the state of Missouri.

Charles F. Kelly, former chairman of the city council, known as the house of delegates, was the most badly wanted of all the "coterie" charged with bribery in connection with the city lighting bill. Kelly was wanted because it is said he handled the \$47,500 which was distributed among the nineteen members of the combine.

FOR ATTEMPTED JURY BRIBING.

Michigan Ex-State Senator Held for Trial at Lansing.

Lansing, Mich., Nov. 29.—Ex-State Senator John Holbrook was bound over for trial during the evening by Justice Marsh at the conclusion of his examination on a charge of attempting to corrupt a juror in the case of Colonel Eli R. Sutton, who two years ago was acquitted of the charge of complicity in the military board scandal through which the state was robbed of nearly \$50,000 worth of military clothing and supplies by means of a pretended sale and repurchase of the goods. Sutton is now a fugitive in Mexico City, having fled the state when a warrant was recently issued charging him with perjury. Holbrook is alleged to have suggested to Arthur Phillips, who was called as a juror, that it would be worth \$500 to him to sit on the jury and vote for Sutton's acquittal.

NOVEL METHOD OF SUICIDE.

Omaha Man Cuts Insulation From Live Wires and Then Grasps Them.

Omaha, Nov. 29.—Michael Shields, chief electrician at Armour's Packing plant at South Omaha, was found dead during the day, his hand grasping a bunch of live wires. Burns on his hand indicated that electric currents killed him. Insulation had been cut from the wires at the place where they had been grasped by the dead man. On the ground beside him lay an open pocket knife, on the blade of which was particles of bright copper, indicating that it had recently been used in scraping the wire. Shield's father died of consumption several years ago and on his death bed he predicted that Michael would not live to be thirty years of age. He would have been thirty years old had he lived a few hours longer.

SOLD TO THE HIGHEST BIDDER.

Negro Brought \$7 and Two Colored Women \$5 Each.

Lancaster, Ky., Nov. 29.—Sheriff Lawson attracted a large crowd before the court house door during the day by the sale of three negroes, two women and a man. After first reading his order from the circuit court directing the sale and the terms thereof, he asked for bids. The man, Charles Anderson, sold for twelve months, brought \$7, and the women, Belle Griffin and Emma Reed, sold for one and three years respectively, brought \$5 each. The three were convicted for vagrancy and ordered sold to the highest bidder.

RE-CROSS THE FRONTIER.

Venezuelan Troops Defeat the Colombian Invaders.

Caracas, Venezuela, Nov. 29.—The Colombian invaders under Generals Garibiras and Espiritu Morales, after several defeats, were obliged to re-cross the frontier Nov. 25. They left numerous prisoners in the hands of the Venezuelan troops, among them Chief of Staff Briceño, who was abandoned in a wounded condition. They also left a quantity of ammunition. The revolutionary general, Maloia, is still lying sick at Willemstadt, Curacao.

MONUMENT TO GRANT.

Confederate Veterans Start a Fund to Erect One in Richmond.

Norfolk, Va., Nov. 29.—Confederate veterans, survivors of Company C, Thirtieth Virginia cavalry, have started a fund at Western Branch in Norfolk county, to erect a monument to the memory of General U. S. Grant in Richmond. The fund starts off with \$16. \$1 for each survivor, and contributions will be solicited until a sufficient sum has been secured to erect the monument.

General Lew Wallace Ill.

Crawford, Ind., Nov. 29.—The family of General Lew Wallace is alarmed over an illness he is suffering with. At present he is confined to his bed. The illness started with a diseased tooth, but has spread until the general is in quite a weakened condition.

Dillon Practically Recovered.

Chicago, Nov. 29.—John Dillon, the Irish parliamentary leader, has practically recovered from his illness. The authorities at Mercy hospital, where he has been under treatment, said that he would probably leave there Sunday.

CAUSES TERRIFIC EXPLOSION.

St. Paul Man Looks for a Gas Leak With a Candle.

St. Paul, Nov. 29.—Oren Peterson, a laborer, looked for a gas leak with a candle during the day. The explosion that announced the success of his search wrecked Barrett & Zimmerman's new store building on University avenue, near Prior avenue, partly destroyed four other structures and injured three men. An interurban car filled with passengers had passed the building only an instant before the explosion.

FATAL BOILER EXPLOSION.

Two Men Killed and Two Injured at Lisella, Ga.

Macon, Ga., Nov. 29.—By the explosion of a boiler used with a stationary engine at Lisella, ten miles from here, during the day, Paul Rogers and Walton Taylor were killed. James Witham and an unknown colored man were seriously injured.

MOTHER LEFT THEM ALONE.

Three Children Die From Burns at Baltimore.

Baltimore, Nov. 29.—Three children of Morris Bressler died during the night from burns received at their home during the day. The mother left them alone and when she returned the house was in flames.

Dies at Age of 123 Years.

Newton, Kan., Nov. 29.—Mrs. Kate Vance, a colored woman of this city, died here during the night aged 123 years. Mrs. Vance had a daughter ninety years of age and her husband died at the age of 100. She remembered with distinctness Jefferson's administration and the War of 1812.

Soundings Formally Transferred.

Washington, Nov. 29.—The formal transfer of the soundings of the Nero to be used in laying the Pacific cable, occurred during the day in the office of Rear Admiral Bradfield, chief of the bureau of surveys. The local manager of the Postal Telegraph company received the documents.

Found Guilty of Murder.

Harley, Wis., Nov. 29.—Jake Manila was found guilty during the day of murder in the second degree, having killed Emil Upgard, June 24.

Charged With Grand Larceny.

New York, Nov. 29.—William Landau of Buffalo, who was arrested in connection with an alleged cotton swindle through which Landenburg Thalman & Co., bankers of this city were reported to have lost \$200,000, was arraigned during the day and held in \$1,000 bail for examination on Jan. 8, 1903, on a charge of grand larceny.
